RETHINK CONTAINERS ACCELERATING DAY ZERO

RedHat OpenShift is well known to be the enterprise platform of choice for containers and Crossvale has been awarded the commercial application platform partner of the year by RedHat.

Years of experience has taught us that to ensure success for your business there are many factors to build into the strategy.

Do you ask yourself these questions?

- ▶ **Have I considered the security implications with containers?**
- ▶ **How do I bring DevSecOps into our business?**
- ▶ **How will I automate my pipelines?**

BUILD IT

MANAGE IT

GROW IT

Our prescriptive approach to delivery of containerized solutions on Red Hat OpenShift has proven successful in twenty US states and seven countries.

Crossvale's Red Hat Certified consultants deliver value quickly, efficiently, and securely while providing accelerators leveraging proven methodologies. Coupled with hands-on mentoring for your team you can start running critical work-loads in production in single digit weeks.

Built to Solve Problems

Red Hat® OpenShift® is an enterprise-ready Kubernetes container platform built for an open hybrid cloud strategy. It provides a consistent application platform to manage hybrid cloud, multicloud, and edge deployments.

- ▶ Packages to fit where you are on your automation journey
- ▶ Prescriptive solutions
- ▶ Full configured for onsite or remote delivery
- ▶ Rapid acceleration to day 1
- ▶ Mentoring and coaching included
- ▶ Best practices in governance employed
- ▶ Results focussed
